Board Direction

Ref: 04.235253

The submissions on this file and the Inspector's report were considered at a Board meeting held on 24th May, 2010.

The Board decided to refuse permission generally in accordance with reason number 2 of the Inspector's recommendation, subject to the amendments shown in manuscript on the attached copy of the Inspector's draft reasons and considerations.

(Note : The Board noted the Inspector's recommendation to also refuse permission on the grounds of possible impact of the discharge of treated effluent on a Natura 2000 site / lack of appropriate assessment , but considered that this might constitute a new issue in the context of the appeal . Board decided not to refuse permission for this reason or pursue the matter further in view of decision to refuse permission as above.)
