Board Direction

Ref: 06F.236423

The submissions on this file and the Inspector's report and the responses to the Board's notice were further considered at a Board meeting held on the 17th of September 2010.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, subject to the amendments shown in manuscript on the attached copy of the draft order.

Note: The Board considered that it was not necessary to circulate the response received from the applicant on the 14th of September to the parties having regard to National guidelines.

The Board considered the applicant's response to the Board's notice acceptable subject to a condition regarding turbine size and the reduction of the proposed development to one turbine only having regard to the restricted size of the site.
