

An Bord Pleanála

Board Direction

Ref: 06S.237382

The submissions on this file were considered at a Board meeting held on 28th September 2010.

The Board had regard to the information contained on the history file, including site inspection description and photographs. The Board also noted that the Metro West project has not yet been the subject of an application for approval. It was considered that, notwithstanding the letter of support from the Railway Procurement Agency, the final layout of the rail line in the general vicinity of Belgard Road/ Newlands Cross junction remains to be determined/ approved. Having regard to all of the above circumstances it was considered that a site inspection and report were not necessary.

The Board decided to refuse permission for the same reason as in the attached history file PL 06S.229735.

Board Member: _____ Date: 28th September 2010.
