Proposed Plan 1:250

Legend

- Leinster Granite Paving: Retained
  Retained levels along the north side of Parnell Square North; minor areas may require relaying where services are being accessed
- European Granite Paving: New
  European granite to match existing historic granite in tone, colour, and petrographic qualities. Laid in varying sizes as per historic footpaths
- European Granite Setts: New
  European granite to match existing historic granite in tone, colour, and petrographic qualities. Laid in smaller setts for greater flexural strength (events etc.)
- Library Entrance Paving
  European granite to match existing historic granite in tone, colour, and petrographic qualities. Laid in larger slabs and continues into internal spaces.
- Raised Table Crossing
  European granite to match existing historic granite in tone, colour, and petrographic qualities. Laid in small setts for greater flexural strength
- 24-Lane Carriageway
  European granite to match existing historic granite in tone, colour, and petrographic qualities. Laid in small setts for greater flexural strength. Lane markings in stone
- Precast Concrete Pavers
  Retained in most footpath areas outside the red line, and along the west footpath of Parnell Square West, and the east footpath of Parnell Square East
- Tarmacadam
  Retained on roadway on Parnell Square East and West
- European Granite Kerbing
  European granite to match existing historic granite in tone, colour, and petrographic qualities. 450mm wide
- Extent of dropped Kerbing
  For Vehicular and Pedestrian Access to Plaza; European granite to match existing historic granite in tone, colour, and petrographic qualities. 450mm wide
- Dished Granite Channel: New
  European granite to match existing historic granite in tone, colour, and petrographic qualities. 350mm wide. 25mm additional edge for pinning canes
- Granite Guidance Tactile
  Various shapes and materials as per rdsc. Controlled crossings; Uncontrolled crossings; Linear Guidance; Contours; see Landscape Report
- Blistered Granite Tactile
  To indicate to visually impaired the locations of uncontrolled crossings on raised tables
- Road Demarcation
  Carriageways defined by variance in self colour
- Blistered Tactiles
  To indicate to visually impaired the locations of controlled traffic light crossings to the surrounding footpaths
- Existing Streetlight Fixture
  Repaired Block, with bulbs upgraded to warm LEDs
- Historic Collar Cover
  Retained in situ, in the historic granite pavement
- Removable Granite Bollard
  To control day-to-day entry and exit onto the carriageway; Removed for Parades and other events as required
- Inground Services for Markets
  Alternating both Power and Water Outlets separately
- Doublewalled timber city bench
  With LED accented downlighters
- Doublewalled timber city support bench
  Same bench as above with added backrest and armrest
- Movable Cafe tables and chairs
  Associated with Library. Cafe & potentially other premises along the street, collected in the evening
- Public Drinking Fountain
  To reduce plastic bottle consumption
- Black Bike Stands
  Laid in between the street trees to avoid blocking routes
- Relocation of Dublin Bike Station
  Laid in between the street trees to avoid blocking routes
- Street Tree
  London Plane or similar; Bespoke Tree Grill; SUDs drainage potential
- Water pool & fountain
  Combination of resting sets and falls to add sound and atmosphere to the entrances at both sides
- Traffic Light
  Mostly relocated from existing positions nearby
- Extra Relocation
  Moved approximately 10m south down PSpitfield to the east bank of parking spaces
- Drop-off Zone
  Bus/Coach, similar location to existing; short stoppages only
- Disability Parking
  Wider spaces than existing provisions; dropped kerbs nearby for footpath access
- Library WiFi Point
  Concealed underneath bench along with downlighters
