

An Bord Pleanála

PLANNING AND DEVELOPMENT ACTS 2000 TO 2010

Cork County

Planning Register Reference Number: 10/6053

An Bord Pleanála Reference Number: PL 04.237910

APPEAL by Eddie O'Donoghue care of Edgewood Design and Construction of 4 Pinecourt, Castlelake, Carrigtohill, Cork against the decision made on the 11th day of October, 2010 by Cork County Council to refuse permission.

PROPOSED DEVELOPMENT: Construction of a new detached dwelling and garage along with treatment plant, site and ancillary works at Glynn, Mourneabbey, County Cork.

DECISION

REFUSE permission for the above proposed development based on the reasons and considerations set out below.

MATTERS CONSIDERED

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard. Such matters included any submissions and observations received by it in accordance with statutory provisions.

REASONS AND CONSIDERATIONS

1. The site is located within an Area Under Strong Urban Influence as identified in the Sustainable Rural Housing Guidelines for Planning Authorities issued by the Department of the Environment, Heritage and Local Government in April, 2005 and within the Rural Housing Control Zone as set out in the current Cork County Development Plan, where it is the policy of the planning authority to discourage new individual housing in order to control development pressures for urban generated commuter housing in the countryside, outside the metropolitan green belt, but within easy commuting distance of Cork city and to direct development into existing designated settlements, villages and village nuclei. On the basis of the submissions made in connection with the planning application and the appeal, it is considered that the applicant does not meet the criteria for a dwellinghouse in this rural area. The proposed development would erode the rural character of the area and lead to demands for the provision of further public services and community facilities. The proposed development would, therefore, be contrary to the proper planning and sustainable development of the area.
2. The Board is not satisfied, on the basis of the information submitted with the planning application and the appeal, that the site can be provided with a safe access with appropriate sight distances on this generally substandard and narrow road and would create a traffic hazard by reason of the extra traffic generated in this area served by a poor road network.
