

Board Direction

Ref: 17. PA0013

This file was considered at a further Board meeting held on the 28th November 2012.

The Board noted the circumstances of the case and the series of submissions made and correspondences carried out since the previous Board Meeting in June 2010. The Board considered the memorandum from the Director of Planning, and the draft 'Consultants Brief' attached.

The Board did not consider it necessary to re-open the oral hearing into the case, on the basis that the issues arising subsequent to the Board's request for further information (June 2010) can be adequately considered and assessed on the basis of written submissions.

The Board decided, having regard to the non-availability of the reporting Inspector, and the need to expedite matters in relation to completion of the case, to commission the consultants report as recommended by the Director of Planning, which report will assist the Board in assessing the further information submitted.

Having reviewed the draft Brief, the Board made some amendments which are made in manuscript on the attached copy.
