**This document is Volume 1: Non Technical Summary of the
Tyrone – Cavan Interconnector Environmental Statement (ES).**
The whole ES consists of a number of documents and should be read together.

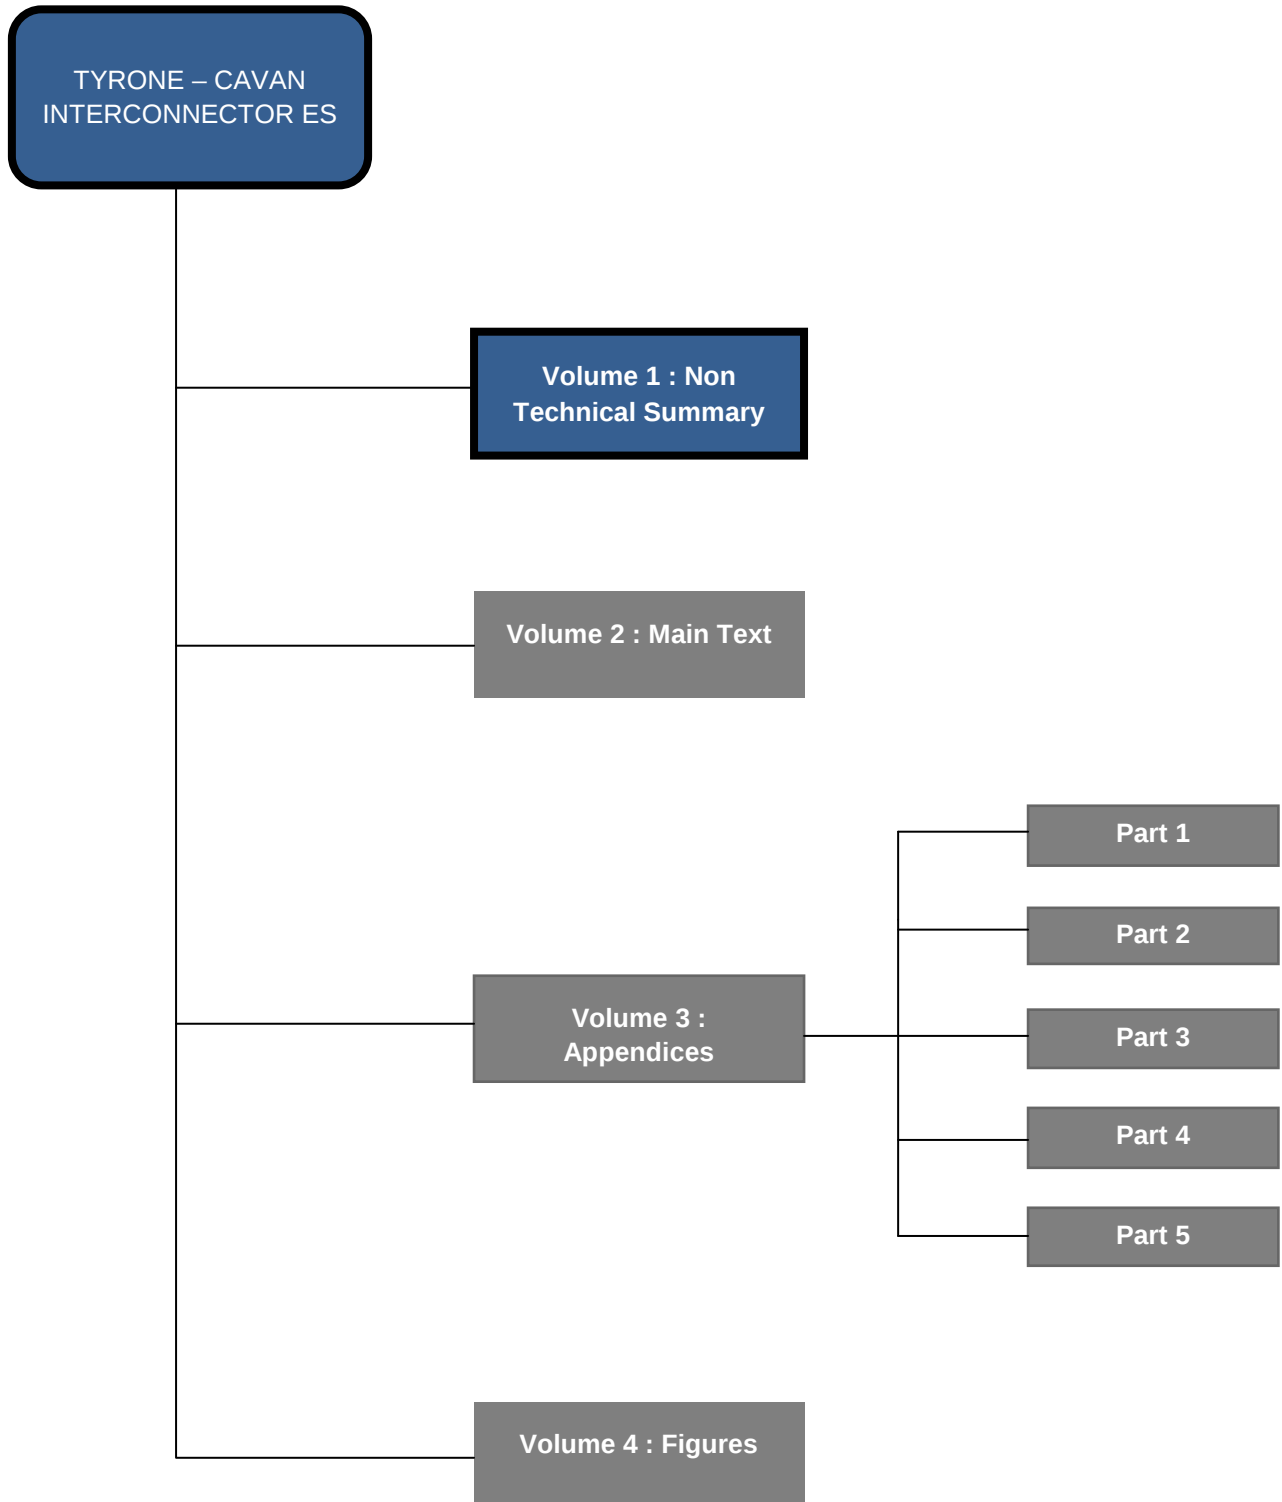

Table of Contents

1	Introduction	1
1.1	Background, Purpose and Context	1
1.2	The Proposed Development	1
1.3	The Need for Environmental Impact Assessment.....	2
1.4	Relationship with Associated Development in the Republic of Ireland	3
1.5	Previously Published Documents	3
1.6	The Consolidated Environmental Statement	3
1.7	Planning Applications	4
2	Project Need	5
2.1	Introduction	5
2.2	Electricity Prices	5
2.3	Renewable Energy	6
2.4	Energy Security	6
2.5	Legal and Regulatory Context	7
2.6	Limitations of the Existing Interconnection.....	7
2.7	Key Requirements for Additional Interconnection.....	7
3	Policy.....	8
4	Alternatives.....	9
4.2	Alternatives Part One: Transmission Alternatives.....	9
4.3	Alternatives Part Two: Substation Location and Overhead Line Route Selection.....	17
5	The Proposed Development.....	22
5.1	Summary	22
5.2	Connections / Modifications to Existing Infrastructure	22
5.3	General Description of the Proposed Substation.....	22
5.4	Construction of the Proposed Substation	23
5.5	General Description of the Proposed Overhead Line	23
5.6	Construction of the Proposed Overhead Line.....	24
6	Environmental Impact Assessment.....	26
6.1	General Overview of EIA Process	26
6.2	Scoping.....	26
6.3	Consultations	27
6.4	EMF	27
6.5	Water Environment.....	29
6.6	Soils, Geology and Groundwater	30
6.7	Ecology.....	31

6.8	Noise	32
6.9	Cultural Heritage.....	33
6.10	Landscape and Visual	33
6.11	Community Amenity and Land Use	37
6.12	Socio-Economics	37
6.13	Telecommunications and Aviation Assets	38
6.14	Transport	38
6.15	Cumulative and Interrelationship of Impacts.....	38
6.16	Transboundary Impacts	39
6.17	Conclusions	40
7	Copies and Comments	41

Figures

- Figure I Location Plan
- Figure II Typical 400kV Suspension Tower
- Figure III Typical 400kV Angle Tower
- Figure IV Proposed Turleenan Substation Layout

1.7 Planning Applications

19. The Consolidated ES outlines the assessment of the Proposed Development, which has been formally submitted to DOE as two separate planning applications:
- O/2009/0792/F – the original planning application for the Proposed Development including the substation, towers, overhead line and associated development; and,
 - O/2013/0214/F – a second application relating specifically to the works associated with the construction of the overhead line and towers.
