Subject: North-South Interconnector Project

Good morning Councillor,

I refer to the previous emails concerning EirGrid's north-South Electricity Interconnector project. As part of the pre-application procedure under Regulation 347/2013, the draft application file submitted by EirGrid was examined for Missing Information. Missing Information was identified to EirGrid on 16/12/14. Eirgrid submitted the Missing Information to AN Bord Pleanála (PCI Unit) last Friday: 13th March, 2015. That Missing Information will now be examined. Regulation 347/2013, under Article 10 4 (c), allows a period of 3 months for this process. An Bord Pleanála PCI Unit expects to complete this part of the process within a shorter time period. Whenever the Missing information stage is completed, it should then be possible for the public to be given the indicative date for the lodgement of the application under section 182A of the Planning and Development Act, 2000.

Regards,

Seamus Grant
