

Board Direction

Ref: 06S.246168

The submissions on this file and the Inspector's report were considered at a Board meeting held on 31st, May 2016.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the reasons and considerations and subject to the conditions as set out below.

REASONS AND CONSIDERATIONS

Having regard to the planning history of the area, the pattern of development of the area, the nature and design of the proposed dwelling and its design and siting in relation to neighbouring property, it is considered that, subject to compliance with the conditions set out below, the proposed development would be in accordance with the residential zoning designation and Policies H13, H14, H15 and H17 of the South Dublin County Council Development Plan 2010-2016 and would not seriously injure the amenities of the area or of property in the vicinity. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area

The Board did not consider that the proposed development involving the provision of a dwelling on an infill site with an area zoned residential in the South Dublin County Development Plan 2010 – 2016 would materially contravene the Development Plan.

CONDITIONS

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity

2. The bathroom window on the first floor south-east facing elevation shall be of opaque glass only.

Reason: In the interest of protecting residential amenity.

3. Details of the materials, colours and textures of all the external finishes to the proposed dwelling and boundary walls shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

4. Notwithstanding the exempted development provisions of the Planning and Development Regulations, 2001, and any statutory provision replacing or amending them, no development falling within Class 1 or Class 3 of Schedule 2, Part 1 of those Regulations shall take place within the curtilage of the proposed development without a prior grant of planning permission.

Reason: In order to ensure that a reasonable amount of rear garden space is retained for the benefit of the occupants of the dwelling.

5. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

6. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including hours of working, noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

7. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
