

Board Direction

Ref: 29N.246376

The submissions on this file and the Inspector's report were considered at a Board meeting held on 28th, July 2016.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the reasons and considerations and subject to the conditions as set out below.

REASONS AND CONSIDERATIONS

Having regard to the nature, scale and design of the proposed development, the character and pattern of development in the vicinity of the site, the provisions of the Dublin City Development Plan 2011-2017 and the planning history of the site, it is considered that subject to compliance with the conditions set out below, the proposed development would not adversely affect the residential or visual amenities of the area and would, therefore, be in accordance with the proper planning and sustainable development of the area.

CONDITIONS

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

REASON: In the interest of clarity.

2. The proposed structure shall not be used for residential use including overnight sleeping accommodation, and shall not be used for any commercial use or other use other than the use as an artist's studio as specified on the submitted plans and particulars. No development shall be undertaken on the remainder of the site which shall be maintained as an open garden area without any external storage associated with the proposed artist's studio use. The width of the pedestrian access onto the rear laneway shall not be extended. A on-site bicycle parking stand shall be provided.

REASON: In the interest of clarity.

3. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

REASON: In the interest of public health and to ensure a proper standard of development.

4. Site development and building works shall be carried only out between the hours of 07.00 to 18.00 Mondays to Fridays inclusive, between the hours of 08.00 to 14.00 on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

REASON: In order to safeguard the amenities of property in the vicinity.

5. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to the Board to determine the proper application of the terms of the Scheme.

REASON: It is a requirement of the Planning and Development Act 2000 that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
