

Board Direction

Ref: 19.246844

The submissions on this file and the Inspector's report were considered at a Board meeting held on 24th, October 2016.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the reasons and considerations and subject to the conditions as set out below,

REASONS AND CONSIDERATIONS

Having regard to the provisions of the Offaly County Development Plan, the nature and limited scale of the proposed development, the proposed use of an existing access, the availability of satisfactory sightlines, and the relationship of the development to the agricultural use of the lands, it is considered that the proposed development, subject to compliance with the conditions set out below, would be acceptable in terms of traffic safety and convenience, would not set a precedent for access onto national roads and would, therefore, be in accordance with the proper planning and sustainable development of the area.

CONDITIONS

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 11th day of May 2016, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Std. 1st Occupancy and Reasons
3. The water supply to serve the proposed dwelling shall have sufficient yield to serve the proposed development, and the water quality shall be suitable for human consumption. Details, demonstrating compliance with these requirements, shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: To ensure that adequate water is provided to serve the proposed dwelling, in the interest of public health.

4. The proposed septic tank drainage system shall be in accordance with the standards set out in the document entitled "Code of Practice - Wastewater Treatment and Disposal Systems Serving Single Houses (p.e. ≤ 10)" – Environmental Protection Agency, 2009.

Reason: In the interest of public health.

5. The roof colour of the proposed house shall be blue-black, black, dark brown or dark-grey. The colour of the ridge tile shall be the same as the colour of the roof.

Reason: In the interest of visual amenity.

6. The external walls shall be finished in neutral colours such as grey or off-white.

Reason: In the interest of visual amenity.

7. (a) All surface water generated within the site boundaries shall be collected and disposed of within the curtilage of the site. No surface water from roofs, paved areas or otherwise shall discharge onto the public road or adjoining properties.
(b) The access driveway to the proposed development shall be provided with adequately sized pipes or ducts to ensure that no interference will be caused to existing roadside drainage.

Reason: In the interest of traffic safety and to prevent pollution.

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
