Board Direction
PL93.247429

The submissions on this file and the Inspector's report were considered at a Board meeting held on February 24th 2017.

The Board decided, by a vote of two to one, to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the zoning of the site in the Waterford City Development Plan 2013 – 2019, which is 'to provide and improve General Business Uses', to the planning history of the site (including a recent planning permission for retail development on the subject premises), to the pattern of development in the area, and to the nature and extent of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would be in accordance with the zoning objective for the site, would not seriously injure the amenities of the area, would not result in the over proliferation of off-licence uses in the area and would be acceptable in terms of pedestrian and traffic safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such

conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Details of the materials, colours and textures of all the external finishes to the proposed building shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

3. The proposed signage, as indicated on submitted drawings, shall be restricted to individual lettering, which shall not be internally illuminated but may be backlit, affixed to the fascia of the front elevation.

Reason: To protect the visual amenities of the area.

4. Apart from the single sign referred to in condition 3 of this order, and notwithstanding the provisions of the Planning and Development Regulations, 2001, or any statutory provision amending or replacing them, no further advertisement signs (including any signs installed to be visible through windows), advertisement structures, banners, canopies, flags, or other projecting elements shall be displayed or erected on the proposed building or within the curtilage of the site, unless authorised by a further grant of planning permission.

Reason: In the interest of visual amenity and orderly development and to permit the planning authority to assess any such development through the statutory planning process.

5. Security roller shutters, if installed, shall be recessed behind the perimeter glazing and shall be factory finished in a single colour to match the colour scheme of the building. Such shutters shall be of the 'open lattice' type only, and shall not be used for any form of advertising, unless authorised by a further grant of planning permission.

Reason: In the interest of visual amenity

6. Litter in the vicinity of the premises shall be controlled in accordance with a scheme of litter control which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This scheme shall include the provision of litter bins and refuse storage facilities.

Reason: In the interest of visual amenity

7. A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials and for the ongoing operation of these facilities shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or

on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
