Board Direction
PL12.247853

The submissions on this file and the Inspector's report were considered at a Board meeting held on the 5th July 2017.

The Board decided to refuse permission, generally in accordance with the Inspector's recommendation, for the following reasons and considerations.

Reasons and Considerations

1. The proposed development would generate additional traffic turning movements at the junction of the lane serving the site and the Regional Road R207 where adequate forward visibility is not available due to the horizontal alignment of the regional road to the south-west. The proposed development would therefore endanger public safety by reason of traffic hazard.
