---

The submissions on this file were considered at a Board meeting held on May 8<sup>th</sup> 2017.

The Board decided to refuse permission for the following reasons and considerations.

### **Reasons and Considerations**

It is considered that the subject application includes retention of development of the winning and working of aggregates, retention and planning permission for quarrying operations, and the continuation of an existing Agnate washing plant and all associated works and that the development the object of the application would have a requirement for an Environmental Impact Assessment and an Appropriate Assessment if it had been made in respect of development before it was commenced.

Accordingly, by reason of S34 (12) of the Planning and Development Act 2000 (as amended) the Board is precluded from granting planning permission.
