Board Direction
PL07.248432

The submissions on this file and the Inspector's report were considered at a Board meeting held on 24th November 2017.

The Board decided to refuse permission for the following reasons and considerations.

Reasons and Considerations

In deciding not to accept the Inspector's recommendation to grant permission, and notwithstanding the nature of the proposed development and its intended agricultural use on a farm and within a farm complex, the Board agreed that, due to its design, scale, and proximity to the adjoining property, the proposed development would be visually obtrusive and seriously injure the amenity of the adjoining property, and would not therefore be in accordance with proper planning and sustainable development of the area.
