Board Direction
PL06S.248776

The submissions on this file and the Inspector's report were considered at a Board meeting held on 14th December 2017.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of the South County Dublin Development Plan 2016-2022, the location of the site and the pattern of existing development in the area it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area or of property in the vicinity and would be acceptable in terms of traffic and pedestrian safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area, and would not affect the character and setting of the protected structure.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted on the 19th day of May 2017, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the

planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interests of clarity

- 2 Details of the materials, colours and textures of all the external finishes to the proposed development shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity

- 3 The internal road and circulation network serving the proposed development including parking areas, footpaths and kerbs shall comply with the detailed standards of the planning authority for such road works.

Reason: In the interest of amenity and of traffic and pedestrian safety.

- 4 Footpaths shall be dished at road junctions in accordance with the requirements of the planning authority.

Reason: In the interest of pedestrian safety

- 5 All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

- 6 A comprehensive boundary treatment and landscaping scheme shall be submitted to and agreed in writing with the planning authority, prior to commencement of development. This scheme shall include the following: -

(a) details of all proposed hard surface finishes, including samples of proposed paving slabs/materials for footpaths, kerbing and road surfaces within the development;

(b) proposed locations of trees and other landscape planting in the development, including details of proposed species and settings;

(c) details of proposed boundary treatments at the perimeter of the site,

and internally within the site including heights, materials and finishes.

(d) details relating to the protection of existing trees as required by the planning authority

The boundary treatment and landscaping shall be carried out in accordance with the agreed scheme and shall include a timescale for implementation.

Reason: In the interest of visual amenity.

- 7 Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health

- 8 Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

- 9 Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the “Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects”, published by the Department of the Environment, Heritage and Local Government in July 2006. The plan shall include details of waste to be generated during site clearance and construction phases, and details of the methods and locations to be employed for the prevention, minimisation, recovery and disposal of this material in accordance with the provision of the Waste Management Plan for the Region in which the site is situated.

Reason: In the interest of sustainable waste management

- 10 No development works shall take place until the applicant has submitted to, and agreed in writing with, the planning authority a workplace travel plan in relation to the proposed development which shall include a provision for the ongoing monitoring of the plan.

Reason: In the interest of sustainable transport.

- 11 Prior to the commencement of any development works on the site the applicant shall submit to, and agree in writing with, the planning authority a structural stability statement in relation to the carrying out of basement works in respect of the proposed development. The safety statement shall include details in relation to the protection of adjoining buildings including the public library building and include the carrying out of photographic surveys of these buildings and structures.

Reason: In the interest of orderly development and safeguarding properties in the vicinity

- 12 The developer shall facilitate the preservation, recording and protection of archaeological materials or features that may exist within the site. In this regard, the developer shall -

(a) notify the planning authority in writing at least four weeks prior to the commencement of any site operation (including hydrological and geotechnical investigations) relating to the proposed development,

(b) employ a suitably-qualified archaeologist who shall monitor all site investigations and other excavation works, and

(c) provide arrangements, acceptable to the planning authority, for the recording and for the removal of any archaeological material which the authority considers appropriate to remove.

In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.

Reason: In order to conserve the archaeological heritage of the site and to secure the preservation and protection of any remains that may exist within

the site.

- 13 Prior to the commencement of any development works on the site, the applicant shall undertake a bat survey by a competent qualified person or consultancy to ascertain the presence of any bat activity on the site in relation to roosting and foraging and an assessment of any potential impact on the species arising from the proposed development. The nature and methodology of this survey shall be agreed with the planning authority prior to the commencement of the survey. No building, feature or vegetation shall be altered or removed prior to this survey and assessment.

Full details of the survey and assessment shall be submitted to the planning authority in advance of any development works on the site.

Should the presence of bats be established on the site no development shall occur until the necessary permission/ derogation licence has been obtained from the appropriate statutory body.

Reason: In the interest of bat protection and to provide for the preservation and conservation of this species.

- 14 Prior to the commencement of development on site, the applicant shall submit for the written agreement of the planning authority, a detailed invasive species management plan.

Reason: In the interest of biodiversity protection

- 15 Details of all signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the amenities of the area/visual amenity.

- 16 The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable

indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
