PL06F.249098**

The submissions on this file and the Inspector's report were considered at a Board meeting held on December 19th 2017.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

The proposed development comprises a replacement house on a site which is zoned to provide for residential development and protect and improve residential amenity in the Fingal County Development Plan 2017-2023. Having regard to the existing use of the site, the arrangement of first floor windows and the provision for off-street car parking it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the visual or residential amenity of the area or of property in vicinity and would otherwise be in accordance with the provisions of the development plan and with the proper planning and sustainable development of the area.

Conditions .

1 The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2 Details of the materials, colours and textures of all the external finishes of the proposed dwelling shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

3 Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

4 Site development and building works shall be carried only out between the hours of 08.00 to 19.00 Mondays to Fridays inclusive, between 08.00 to 14.00 on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

5. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the "Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects", published by the Department of the Environment, Heritage and Local Government in July 2006.

Reason: In the interests of sustainable waste management.

6 Two no. car parking spaces shall be provided within the site. The location and layout of these spaces shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: To ensure adequate off-street parking provision is available to serve the proposed development.

7 All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

Reason: In the interests of visual and residential amenity.

8 (a) Screen walls shall be provided along the northern, western and southern site boundaries. Such walls shall be 2 metres in height above ground level.

(b) Details of the layout, the materials, and external finishes of the screen walls shall be submitted to, and agreed in writing with, the planning authority, prior to commencement of development.

Reason: In the interests of residential and visual amenity.

9 The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to the Board to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000 that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
