Board Direction
PL26.249140

The submissions on this file and the Inspector's report were considered at a Board meeting held on March 5th 2018.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to:-

- (a) the national strategy regarding the provision of mobile communications services,
- (b) the Guidelines relating to telecommunications antennae and support structures which were issued by the Department of the Environment and Local Government to Planning Authorities in July, 1996, as updated by Circular Letter PL/07/12 issued by the Department of the Environment, Community and Local Government on the 19th day of October, 2012,
- (c) the policy of the planning authority, as set out in the Wexford County Development Plan 2013 - 2019, to support the provision of telecommunications infrastructure, and
- (d) the nature and scale of the proposed telecommunications support structure,

it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the visual amenities and landscape character of the area, would not create a traffic hazard and would not conflict with the policies and objectives of the current Development Plan for the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Prior to the commencement of development on the site, details of the proposed colour scheme for the telecommunications structure, ancillary structures and fencing shall be submitted to, and agreed in writing with, the planning authority.

Reason: In the interest of visual amenity and orderly development.

3. CMP1 (with hours)
4. Surface water drainage arrangements for the proposed development shall comply with the requirements of the planning authority.

Reason: In the interest of public health.

5. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to the Board to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000 that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Board Member

Date: 5th March 2018
