

An  
Bord  
Pleanála

**Board Direction**  
**PL29N.249187**

The submissions on this file and the Inspector's report were considered at a Board meeting held on February 5<sup>th</sup> 2018.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the location and historical use of the subject site, the existing pattern of development in the area, the nature and scale of the proposed development and the policies and 'Z1' land-use zoning objective for the site, as set out in the Dublin City Development Plan 2016-2022, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity, would not have a significant impact on the architectural heritage of the area, and would be acceptable in terms of pedestrian and traffic safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

### **Conditions**

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 12<sup>th</sup> day of July, 2017, except

as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. Cycle parking facilities and arrangements shall comply with the requirements of the Planning Authority. Prior to the commencement of development, details of cycle parking provision for the development shall be submitted to, and agreed in writing, with the Planning Authority.

**Reason:** In the interest of sustainable transportation.

3. Details of the materials, colours and textures of all the external finishes to the proposed development, including the windows, canopies and doors, shall be submitted to, and agreed in writing, with the planning authority prior to commencement of development. The pitched roof shall be finished in slate, with ridge tiles in a black or grey colour.

**Reason:** In the interest of visual amenity.

4. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

**Reason:** In the interest of public health.

5. The developer shall facilitate the preservation, recording and protection of archaeological materials or features that may exist within the site. In this regard, the developer shall -

(a) notify the planning authority in writing at least four weeks prior to the commencement of any site operation (including hydrological and geotechnical investigations) relating to the proposed development,

(b) employ a suitably-qualified archaeologist who shall monitor all site

investigations and other excavation works, and  
(c) provide arrangements, acceptable to the planning authority, for the recording and for the removal of any archaeological material which the authority considers appropriate to remove.

In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.

**Reason:** In order to conserve the archaeological heritage of the site and to secure the preservation and protection of any remains that may exist within the site

6. Prior to the commencement of the development, the developer shall carry out a full measured drawing survey, and a photographic record, of the existing houses prior to their demolition, and shall submit one copy to the planning authority and a further copy, together with a digital copy, to the Irish Architectural Archive.

**Reason:** In order to establish a record of this structure prior to its demolition.

7. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

**Reason:** In the interest of public safety and residential amenity.

8. Site development and building works shall be carried out between the hours of 0800 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays or public holidays. Deviation from these times shall only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

**Reason:** In order to safeguard the residential amenities of property in the vicinity.

9. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the “Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects”, published by the Department of the Environment, Heritage and Local Government in July 2006.

**Reason:** In the interest of sustainable waste management.

10. A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials and for the ongoing operation of these facilities shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

**Reason:** To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment.

11. The development shall be used solely for the purposes indicated in the submitted documentation, and for no other purpose without a separate planning permission for change of use.

**Reason:** In the interest of clarity.

12. The roof of the single storey section of the development shall not be used as a terrace or roof garden, and shall be accessed only for maintenance purposes.

**Reason:** In the interest of protecting the residential amenity of adjoining properties.
