Board Direction
PL29S.249405

The submissions on this file and the Inspector's report were considered at a Board meeting held on January 23rd 2018.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the Z1 zoning objective in the Dublin Development Plan 2016-2022, the location of the site, the design and layout of the proposed development, and the pattern of development in the area, it is considered that, subject to compliance with conditions below, the proposed development would not seriously injure the visual amenities of the area or residential amenity of properties in the vicinity. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed out in accordance with the agreed particulars.

Reason: In the interest of clarity.

2 The proposed development shall be amended as follows:

The first floor of the rear extension shall be set back by 1m from both No 43 And 47 Belgrove Lawn

Revised drawings showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interests of residential amenity.

3 Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

4 The external finishes of the proposed extension, including roof tiles/slates, shall be the same as those of the existing dwelling in respect of colour and texture.

Reason: In the interest of visual amenity

5 Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

6 The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Note: In deciding not to accept the inspectors recommendation to omit the first floor in its entirety the Board concurred with the planning authority that a 1 m set back from both adjoin properties provided sufficient mitigation and the proposed development would accordingly, subject to conditions be in accordance with Proper planning and sustainable development of the area.
