ABP-300094-17

The submissions on this file and the Inspector's report were considered at a Board meeting held on 27/02/2018.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

- 1.1. *Having regard to the provisions of the Roscommon County Development Plan 2014-2020 and the Boyle Local Area Plan 2015-2021, and the existing pattern of development in the area, in addition to the nature and scale of the proposed development, it is considered that subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.*

2.0 Conditions

1. *The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning*

authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: *In the interest of clarity.*

2. *The proposed development shall be amended as follows:*

(a) The rear/eastern vehicular entrance gate shall be omitted from the development and replaced with a block boundary wall.

(b) The boundary wall adjacent to the railway line shall be a 2.4meter high, 225mm thick block wall and shall be erected along the entire length of the developer's side of the existing railway boundary line. The wall should be capped with copings and have piers at appropriate locations to ensure the stability of the wall. Expansion joints should be provided. The wall must be maintained and repaired by the developer or his successors and /or assignees.

Revised drawings showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: *In the interests of residential amenity.*

3. *The external finishes of the proposed extension (including roof tiles/slates) shall be the same as those of the existing dwelling in respect of colour and texture.*

Reason: *In the interest of visual amenity.*

4. *Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.*

Reason: *In the interest of public health.*

5. *Site development and building works shall be carried out only between the hours of 0700 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.*

Reason: *In order to safeguard the residential amenities of property in the vicinity.*

6. *Include as condition 6 the ADP standard Construction Management Plan condition with the following addition:
“Lights from the proposed development, either during the construction phase or when the development is completed should not cause glare or in any way impair the vision of train drivers operating on-track machines.*
7. *The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.*

Reason: *It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.*
