**ABP-300115-17**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 03/04/2018.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the provisions of the current Wexford Town and Environs Development Plan 2013-2019, the location of the site in the established town centre and to the nature and design of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area. The proposed development would be in accordance with the proper planning and sustainable development of the area.

### **Conditions**

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted to An Bord Pleanála on the 13th day of December 2017, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning

authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. The proposed northern boundary wall shall be finished in stone to match the existing wall. The colour and finish of the proposed new railings and gates shall be submitted and agreed with the Planning Authority prior to the commencement of development.

**Reason:** In the interests of visual amenity.

3. Details of the materials, colours and textures of all the external finishes to the proposed extension, including the windows and doors, shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In the interest of visual amenity.

4. Notwithstanding the provisions of the Planning and Development Regulations 2001, or any statutory provision amending or replacing them, no further advertisement signs (including any signs installed to be visible through the windows), advertisement structures, banners, canopies, flags, or other projecting elements shall be displayed or erected on the building or within the curtilage of the site, unless authorised by a further grant of planning permission.

**Reason:** To protect the visual amenities of the area, and to allow the planning authority to assess any such further signage or advertisements through the statutory planning process.

5. Before commencement of construction, details of the installation and/or erection of any extraction ventilation system, including details of the methods of noise attenuation and treatment of emissions and filters to remove odours, shall be submitted to, and agreed in writing with, the planning authority and have

thereafter been installed. Such works shall be operated at all times when the restaurant is in use, and maintained in accordance with the manufacturer's instructions unless otherwise agreed in writing with the planning authority. All extraction ducting shall be vented above eaves level.

**Reason:** In the interest of public health, residential amenity and orderly development.

6. The restaurant shall not be open for business outside of the following hours:-  
Monday to Saturday 08.30 am. to 11.30pm.

Sundays and Bank Holidays 10.00 am. to 11.30pm.

**Reason:** In order to protect the residential amenities of property in the vicinity.

7. The outdoor courtyard area shall not be used for eating or drinking after 09.00pm on any day. Details of external lighting of the courtyard shall be submitted to the Planning Authority for agreement prior to the commencement of development.

**Reason:** In order to protect the residential amenities of property in the vicinity.

8. A plan containing details for the management of waste/recyclable materials within the development, including the provision of facilities for the storage, separation and collection of the waste/recyclable materials including waste oil and for the ongoing operation of these facilities shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

**Reason:** To provide for the appropriate management of waste/recyclable materials in the interest of protecting the environment.

9. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

**Reason:** In the interest of public health.

10. (a) During the operational phase of the proposed development, the noise level arising from the development, as measured at the nearest dwelling shall not exceed:-

(i) An Leq, 1 hour value of 55 dB(A) during the period 0800 to 2200 hours from Monday to Saturday inclusive.

(ii) An Leq, 15 min value of 45 dB(A) at any other time. The noise at such time shall not contain a tonal component. At no time shall the noise generated on site result in an increase in noise level of more than 10 dB(A) above background levels at the boundary of the site.

(b) All sound measurement shall be carried out in accordance with ISO Recommendation 1996:2007: Acoustics - Description and Measurement of Environmental Noise.

**Reason:** To protect the residential amenities of property in the vicinity.

11. Site development and building works shall be carried out only between the hours of 0700 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

**Reason:** In order to safeguard the residential amenities of property in the vicinity.

12. No additional development shall take place on the flat roof area of the extension, including air handling equipment, storage tanks, ducts or other

external plant, telecommunication aerials, antennas or equipment, unless authorised by a further grant of planning permission.

**Reason:** To protect the residential amenities of property in the vicinity and the visual amenities of the area.

13. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

**Reason:** It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

**Board Member**

**Date:** 03/04/2018
