**ABP-301342-18**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 17/07/2018.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the planning history and the design and layout of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development to be retained and completed would not seriously injure the amenities of the area or of property in the vicinity, would be acceptable in terms of traffic and convenience and would, therefore, be in accordance with the proper planning and sustainable development of the area.

### **Conditions**

1. The development shall be retained and completed in accordance with the plans and particulars lodged with the application, as revised by the further information received by the planning authority on 9<sup>th</sup> of February 2018 except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. Details of screen planting or fencing to serve the western and southern boundaries of the site proposed development, which may incorporate light trellis style fencing and appropriate planting shall be submitted to, and agreed in writing with, the planning authority within two months of the date of decision. The boundary screening shall minimise inter-visibility between the houses but shall not comprise a solid hedge or wall, which might result in significant overshadowing of the adjacent houses. The landscaping shall be completed within six months of the date of decision.

**Reason:** In the interest of visual and residential amenity.

3. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

**Reason:** In the interest of public health and to ensure a proper standard of development.

4. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development.

**Reason:** In the interests of visual and residential amenity.

5. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

**Reason:** It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
