**ABP-301663-18**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 16/11/2018.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the Cork City Development Plan 2015 – 2021 and the Sustainable Urban Housing: Design Standards for New Apartments Guidelines for Planning Authorities, it is considered that the proposal would, subject to conditions, comply with the Z09 zoning objective for the site and all relevant development standards designed to ensure that an adequate standard of amenity would be achievable for future residents. This proposal would be compatible with the visual and residential amenities of the area. Access and parking arrangements and water supply and drainage arrangements would all be satisfactory. The site is not the subject of any identified flood risk and no sub-threshold EIA or AA issues would arise. The proposal would be in accordance with the proper planning and sustainable development of the area.

### **Conditions**

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars submitted on the 29th day of March 2018, except as may otherwise

be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. The proposed development shall be amended as follows:
  - (a) All glazed openings to the apartments shall be fitted with triple glazing.
  - (b) Unit no. 6 shall be provided with internal storage space.
  - (c) Sedum roofs to be provided to all flat roofs.

Revised drawings showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In order to afford a satisfactory standard of amenity to future residents.

3. Details of the materials, colours and textures of all the external finishes to the proposed apartment building shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. The louvered screens shall be timber and metal construction as per Drawing PL 302. Composite wood plastic louvres shall not be used.

**Reason:** In the interest of visual amenity.

4. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Prior to the commencement of development and on the substantial completion of development, a CCTV survey of the public sewerage system shall be undertaken.

The scope of this survey shall be agreed in writing with the Planning Authority and it shall be submitted to the Planning Authority.

**Reason:** In the interest of public health.

5. Prior to the commencement of occupation of any of the apartments, the repaving or resurfacing of the road adjoining the site shown on drawing no. 4723\_0010A shall be undertaken.

**Reason:** In the interest of pedestrian safety.

6. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. Ducting shall be provided by the developer to facilitate the provision of broadband infrastructure within the proposed development. All existing over ground cables shall be relocated underground as part of the site development works.

**Reason:** In the interests of visual and residential amenity.

7. Proposals for a scheme name, apartment numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all scheme signs and apartment numbers, shall be provided in accordance with the agreed scheme. The proposed name shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements/marketing signage relating to the name of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name.

**Reason:** In the interest of urban legibility and to ensure the use of locally appropriate place names for new residential areas.

8. Public lighting shall be provided in accordance with a scheme, details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Such lighting shall be provided prior to the making available for occupation of any apartment.

**Reason:** In the interests of amenity and public safety.

9. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

**Reason:** In order to safeguard the residential amenities of property in the vicinity.

10. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the “Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects”, published by the Department of the Environment, Heritage and Local Government in July 2006. The plan shall include details of waste to be generated during site clearance and construction phases, and details of the methods and locations to be employed for the prevention, minimisation, recovery and disposal of this material in accordance with the provision of the Waste Management Plan for the Region in which the site is situated.

**Reason:** In the interest of sustainable waste management.

11. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including hours of working, noise management measures and off-site disposal of construction/demolition waste.

**Reason:** In the interests of public safety and residential amenity.

12. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the provision of housing in accordance with the requirements of section 94(4) and section 96(2) and (3) (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute (other than a matter to which section 96(7) applies) may be referred by the planning authority or any other prospective party to the agreement to An Bord Pleanála for determination.

**Reason:** To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan of the area.

13. The management and maintenance of the proposed development following its completion shall be the responsibility of a legally constituted management company. A management scheme providing adequate measures for the future maintenance of the car park, open space and communal areas shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** To provide for the satisfactory future maintenance of this development in the interest of residential amenity.

14. The landscaping scheme shown on drawing no. TMS/JC//05-A, as submitted to the planning authority on the 29th day of March, 2018, shall be carried out within the first planting season following substantial completion of external construction works. All planting shall be adequately protected from damage until established. Any plants which die, are removed or become seriously damaged or diseased, within a period of five years from the completion of the development, shall be replaced within the next planting season with others of similar size and species, unless otherwise agreed in writing with the planning authority.

**Reason:** In the interest of residential and visual amenity.
