ABP-301693-18

The submissions on this file and the Inspector's report were considered at a Board meeting held on 28/08/2018.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

In coming to its decision, the Board had regard to the following:

- (a) the site's location in close proximity to the National University of Ireland Galway,
- (b) the policies and objectives in the Galway City Development Plan 2017-2023,
- (c) the Rebuilding Ireland Action Plan for Housing and Homelessness 2016,
- (d) the National Student Accommodation Strategy 2017,
- (e) the nature, scale, and design of the proposed development,
- (f) the pattern of existing and permitted development in the area,
- (g) the submissions and observations received, and
- (h) the report of the Inspector.

It is considered that, subject to compliance with the conditions set out below that the proposed development would not seriously injure the residential or visual amenities of the area or of property in the vicinity, would respect the existing character of the

area, and would be acceptable in terms of traffic and pedestrian safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Appropriate Assessment Screening

The Board noted the Appropriate Assessment Screening Report submitted by the applicant and the Appropriate Assessment Screening determination carried out by the Inspector. The Board concurred with the Inspector's determination, and adopted the conclusions and recommendations in this regard. The Board was therefore satisfied, having regard to the nature, location and scale of the subject development, that the construction of the proposed development would not be likely to have a significant effect, either individually or in combination with other plans or projects, on any other European sites, in view of the sites' conservation objectives.

Environmental Impact Assessment Screening

The Board completed an environmental impact assessment screening of the proposed development and considered that the Environmental Impact Assessment Screening Document submitted by the applicant, identifies and describes adequately the direct, indirect, secondary, and cumulative effects of the proposed development on the environment. The Board concluded that the proposed development, having regard to its nature and scale, would not be likely to have significant effects on the environment. The Board decided, therefore, that an environmental impact assessment report for the proposed development was not necessary in this case.

Conditions

1. The proposed development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars. In default of agreement, the matter(s) in dispute shall be referred to An Bord Pleanála for determination.

Reason: In the interest of clarity.

2. The proposed development hereby permitted shall only be occupied as student accommodation, in accordance with the definition of student accommodation provided under section 13(d) of the Planning and Development (Housing) and Residential Tenancies Act 2016, and shall not be used for any other purpose without a prior grant of planning permission for change of use.

Reason: In the interest of residential amenity and to limit the scope of the proposed development to that for which the application was made.

3. Details and samples of the materials, colours and textures of all the external finishes to the proposed development including pavement finishes shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

4. Prior to the commencement of development, the following details shall be submitted to, and agreed in writing with the planning authority:

- (a) Details of the pedestrian crossing facilities on the Thomas Hynes Road;
- (b) An integrated public lighting design for the site and site boundaries;
- (c) Within six months of the operation of the proposed facility, the developer shall submit for the written agreement of the planning authority a Mobility Management Plan. Details of the location, quantum and accessibility of public parking within the area shall be specifically outlined.

Reason: In the interest of traffic and public safety.

- 5. No additional development shall take place above roof parapet level, including lift motor enclosures, air handling equipment, storage tanks, ducts or other external plant, telecommunication aerials, antennas or equipment, unless authorised by a further grant of planning permission.

Reason: To protect the residential amenities of property in the vicinity and the visual amenities of the area.

- 6. (a) During the operational phase of the proposed development, the noise level arising from the development, as measured at the nearest dwelling, shall not exceed:
 - (i) An Leq,1h value of 55 dB(A) during the period 0800 to 2200 hours from Monday to Saturday inclusive.
 - (ii) An Leq,15 min value of 45 dB(A) at any other time. The noise at such time shall not contain a tonal component.
- (b) All sound measurement shall be carried out in accordance with ISO Recommendation 1996:2007: Acoustics - Description and Measurement of Environmental Noise.

Reason: To protect the residential amenities of property in the vicinity of the site.

- 7. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning

authority for such works and services. In addition, prior to commencement of development mitigation measures against the risk of flooding shall be agreed with the planning authority including measures to address egress of occupants from the building in the case of flooding of surrounding land.

Reason: In the interest of public health.

8. (a) All foul sewage and soiled water shall be discharged to the public foul sewer.
- (b) Only clean, uncontaminated storm water shall be discharged to the surface water drainage system.

Reason: In the interest of public health.

9. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the “Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects”, published by the Department of the Environment, Heritage and Local Government in July 2006.

Reason: In the interest of sustainable waste management.

10. A plan containing details for the management of waste within the proposed development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment.

11. Site development and building works shall be carried out only between 0800 to 1900 hours Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

12. The construction of the proposed development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including hours of working, noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

13. A detailed construction traffic management plan shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. The plan shall include details of arrangements for routes for construction traffic, parking during the construction phase, the location of the compound for storage of plant and machinery and the location for storage of deliveries to the site.

Reason: In the interests of public safety and residential amenity.

14. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development

Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
