ABP-302547-18

The submissions on this file and the Inspector's report were considered at a Board meeting held on 12/02/2019.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the existing pattern of development including its location within an established residential area within the development area of Baltimore; the presence of a dwelling on the appeal site and the nature and scale of the development as proposed, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or property in the vicinity, would not be prejudicial to public health and would be acceptable in terms of traffic safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application and as amended by the further plans and particulars submitted to the Board on the 15th of October 2018, except as may otherwise be required in order to comply with the

conditions set out below. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Details of the materials, colours and textures of all the external finishes to the proposed dwelling shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. The roof finish shall be blue black in colour.

Reason: In the interest of visual amenity.

3. The site shall be landscaped in accordance with a comprehensive scheme of landscaping, details of which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This scheme shall include the following:
 - (a) A plan to scale of not less than 1:500 showing –
 - (i) The species, variety, number, size and locations of all proposed trees and shrubs which shall comprise predominantly native species
 - (ii) Details of boundary treatments
 - (b) A timescale for implementation

All planting shall be adequately protected from damage until established. Any plants which die, are removed or become seriously damaged or diseased, within a period of five years from the completion of the development, shall be replaced within the next planting season with others of similar size and species, unless otherwise agreed in writing with the planning authority.

Reason: In the interest of residential and visual amenity.

4. The internal access and hardstanding and turning area shall be surfaced in gravel or crushed stone, precluding the use of concrete or tarmacadam unless otherwise agreed by the planning authority. Details to be submitted to and agreed with the planning authority prior to commencement of development.

Reason: In the interests of residential and visual amenity and to improve permeability on site.

5. All public service cables for the development, including electrical and telecommunications cables, shall be located underground throughout the site.

Reason: In the interest of visual amenity.

6. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: To ensure adequate servicing of the development, and to prevent pollution.

7. All surface water generated within the site boundaries shall be collected and disposed of within the curtilage of the site. The surface water drainage shall be discharged to a soakaway on the site in accordance with the details outlined for the collection and disposal of surface water drainage submitted to the Board on the 15th of October 2018 on drawing no 5439-0020-A. No surface water from roofs, paved areas or otherwise shall discharge onto the public road or adjoining properties or lands.

Reason: In the interest of orderly development and to prevent pollution.

8. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

9. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in

writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

10. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
