The submissions on this file and the Inspector's report were considered at a Board meeting held on 05/12/2018.

The Board decided to refuse permission, generally in accordance with the Inspector's recommendation, for the following reasons and considerations.

Reasons and Considerations

Having regard to the close proximity of the industrial unit to a dwelling in this rural area and to the nature of the industrial operations carried out within the unit, it is considered that the proposed retention of this industrial unit would seriously injure the residential amenities of this rural area and would thus be contrary to the proper planning and sustainable development of the area.
