ABP-302812-18

The submissions on this file and the Inspector's report were considered at a Board meeting held on 20/03/2019.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the residential zoning of the site in the South Dublin County Development Plan 2016-2013, to the nature and scale of the proposed infill development and to the established character and pattern of development in the vicinity of the site it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the surrounding area, would be acceptable in terms of pedestrian and traffic safety and would be in accordance with the proper planning and sustainable development of the area.

Conditions

- (1) The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted on the 29th day of August 2018, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to

commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

(2) The proposed development shall be amended as follows:

a. The ridge and eaves of the proposed development shall be reduced so that they are at the same height as the corresponding ridge and eaves heights of the house to the east .

Revised drawings showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity

(3) Site development and building works shall be carried out only between the hours of 0800 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

(4) Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works. Surface water from the site shall not be permitted to drain onto the adjoining public road.

Reason: To ensure adequate servicing of the development, and to prevent pollution.

(5) Details of the materials, colours and textures of all the external finishes to the proposed dwelling shall be submitted to, and agreed in writing with, the planning authority prior to the commencement of development.

Reason: In the interest of visual amenity.

(6) Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall be prepared in accordance with the “Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects”, published by the Department of the Environment, Heritage and Local Government in July 2006

Reason: In the interest of sustainable waste management.

(7) The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Note: *The applicant is advised of the provision under Section 34(13) of the Planning and Development Act, 2000 which stipulates that a person shall not be entitled solely by reason of a planning permission to carry out any development.*
