ABP-302883-18

The submissions on this file and the Inspector's report were considered at a Board meeting held on 08/03/2019.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the nature, height and design of the proposed development and the provisions of the Dun Laoghaire Rathdown County Development Plan 2016-2022, it is considered that, subject to compliance with the conditions set out below, the proposed development would integrate in a satisfactory manner with, and would not detract from, the character or setting of the existing built development in the area, would not seriously injure the residential amenities of adjacent properties and would be acceptable in terms of pedestrian and vehicular safety. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1.

The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by further plans and particulars submitted to the An Bord Pleanála on the 30th of October, 2018, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2.

The proposed development shall be modified as follows:

- a) Brick shall be used on the northern elevation of Unit 4 and the southern elevation of Unit 1.
- b) existing overhead wires and existing poles shall be removed and the overhead services undergrounded at the developer's expense.
- c) Rear garden boundaries shall consist of block walls or concrete post and panel fences. Timber fences shall not be used.

Reason: In the interest of visual amenity.

3.

Details including samples of the materials, colours and textures of all the external finishes to the proposed building, including those as modified at condition 2 (a) above, shall be submitted to, and agreed in writing with, the planning authority prior to commencement of

development.

Reason: In the interest of visual amenity.

4. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

5.
 - (i) The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise and dust management measures and off-site disposal of construction/demolition waste.
 - (ii) Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: To protect the amenities of the area.

6. No dwelling units within the proposed development shall be sold separately, independent from the associated car parking provision. All the proposed car parking spaces shall be for occupants of the residential units and shall be sold off with the units and not sold separately or let independently from the residential development.

Reason: In the interest of orderly development.

7. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
