ABP-303027-18

The submissions on this file and the Inspector's report were considered at a Board meeting held on 13/02/2019.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the 'existing residential' zoning, to the nature and scale of the proposed development, and to the existing pattern of development in the vicinity, it is considered that subject to compliance with the conditions below, the proposed development would not be out of character with existing development within the area, would be acceptable in terms of visual impact, would not seriously injure the residential amenities of the area or of property in the vicinity, would be acceptable in terms of pedestrian and traffic safety and would be at low risk from flooding. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by further information received by the Planning Authority on the 4th day of October 2018, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The proposed development shall be amended as follows:

The proposed galvanised wire fence along the southwestern boundary shall be omitted and replaced with a solid screen boundary treatment.

Revised drawings showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interests of protecting the residential amenities of adjoining property.

3. The materials, colours and textures of all the external finishes to the proposed house shall be submitted to and agreed in writing with the Planning Authority before the commencement of construction of the house.

Reason: In the interest of the visual amenities of the area.

4. Water supply, access and drainage arrangements, including the disposal of surface water and the repositioning of roadside signage, shall comply with the requirements of the Planning Authority for such works and services.

Reason: In the interest of public health.

5. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

6. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

7. The developer shall pay to the Planning Authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the Planning Authority that is provided or intended to be provided by or on behalf of the Authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning & Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning & Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
