The application for extension of time was given due consideration, resulting in the following decision.

**Grant an extension** of the period for the making of an application for substitute consent for a further period of **12 weeks** in addition to the 12-week period permitted under section 261A (3)(c)(iii) of the Planning and Development Act 2000, as amended.

### **Reasons and Considerations**

The Board noted the request made for the extension of the period for the making of an application for substitute consent in this instance and considered it appropriate that the further period should be 12 weeks, as opposed to the additional 20 week-period sought. In making this decision, the Board had regard to the circumstances of the case, the nature and scale of the operations and was of the opinion that the extended period of 12 weeks would be adequate to prepare a comprehensive remedial Environmental Impact Statement and remedial Natura Impact Statement in accordance with Sections 177F and 177G of the Planning and Development Act 2000, as amended.
