The submissions on this file and the Inspector's report were considered at a Board meeting held on 15/04/2019.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to:

- (a) the residential zoning objective for the subject site,
- (b) the objectives of the National Planning Framework - Project Ireland 2040 issued by the Government in February, 2018, which seeks to pursue a compact growth policy and to deliver a greater proportion of residential development within existing built up areas,
- (c) the Guidelines for Planning Authorities on Sustainable Residential Development in Urban Areas, issued by the Department of the Environment, Heritage and Local Government in May, 2009, which promotes higher residential densities on residential zoned land in suitable locations,
- (d) the Guidelines for Planning Authorities on Sustainable Urban Housing: Design Standards for New Apartments issued by the Department of Housing, Planning and Local Government in March, 2018, which outlines the need for apartment type developments in particular to meet growing demand,

- (e) the location of the site within close proximity of public transport corridors, and
- (f) the pattern of existing and permitted development in the area and wider area,

it is considered that, subject to compliance with the conditions set out below, the proposed development would be an acceptable density and scale in this location, would not seriously injure the residential amenities of neighbouring property, would be acceptable in terms of pedestrian and traffic safety and convenience and would, therefore, be in accordance with the proper planning and sustainable development of the area.
