The submissions on this file and the Inspector's report were considered at a Board meeting held on 10/06/2019.

The Board decided to refuse permission, generally in accordance with the Inspector's recommendation, for the following reasons and considerations.

Reasons and Considerations

Having regard to the information submitted with the planning application and appeal, it is considered that the proposed development would endanger public safety by reason of traffic hazard, because of the additional traffic turning movements the proposed development would generate onto a public road at a point where sightlines are restricted in both directions.
