**ABP-303977-19**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 14/10/2019.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to:

- (a) the residential zoning objective for the subject site in the Maynooth LAP,
- (b) the objectives of the National Planning Framework - Project Ireland 2040 issued by the Government in February, 2018, which seeks to pursue a compact growth policy and to deliver a greater proportion of residential development within existing built up areas,
- (c) the Guidelines for Planning Authorities on Urban Development and Building Heights issued by the Department of Housing, Planning and Local Government in December, 2018, which outlines the need to provide more compact forms of urban development,
- (d) the Guidelines for Planning Authorities on Sustainable Urban Housing: Design Standards for New Apartments issued by the Department of Housing, Planning and Local Government in March, 2018, which outlines the need for apartment type developments in particular to meet growing demand,

- (e) the Guidelines for Planning Authorities on Sustainable Residential Development in Urban Areas (Cities, Towns & Villages) issued by the Department of the Environment, Heritage and Local Government in May, 2009, which promotes higher residential densities on residential zoned land in suitable locations, and
- (f) the pattern of existing and permitted development in the area and wider area,

it is considered that, subject to compliance with the conditions set out below, the proposed development would be acceptable in terms of height, density and scale in this location, would not seriously injure the residential amenities of neighbouring property, would be acceptable in terms of pedestrian and traffic safety and convenience and would, therefore, be in accordance with the proper planning and sustainable development of the area.

## **Conditions**

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the additional information received on 28th of January 2019, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. P.A. C3
3. Water supply and drainage arrangements, including the disposal of surface water, which shall be adequately attenuated on site prior to discharge, shall be in accordance with the detailed requirements of the planning authority.

**Reason:** In the interest of public health and to reduce the potential for flooding.

4. No additional development shall take place at roof level including any lift motor enclosures, air handling equipment, storage tanks, ducts or other external plant, telecommunications aerials, antennas or equipment, unless authorised by a further grant of planning permission.

**Reason:** In order to protect the visual amenities of the area and to permit the planning authority to assess any such development through the statutory planning process.

5. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

**Reason:** In the interests of public safety and residential amenity.

6. A plan containing details for the management of waste (and in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials and for the ongoing operation of these facilities shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter the waste shall be managed in accordance with the agreed plan.

**Reason:** To provide for the appropriate management of waste and, in particular recyclable materials, in the interests of protecting the environment.

7. Site development and building works shall be carried out only between the hours of 0800 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation

from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

**Reason:** In order to safeguard the residential amenities of property in the vicinity

8. Prior to commencement of development, the applicant or other person with an interest in the land to which the application relates shall enter into an agreement in writing with the planning authority in relation to the provision of housing in accordance with the requirements of section 94(4) and section 96(2) and 3 (Part V) of the Planning and Development Act 2000, as amended, unless an exemption certificate shall have been applied for and been granted under section 97 of the Act, as amended. Where such an agreement is not reached within eight weeks from the date of this order, the matter in dispute (other than a matter to which section 96(7) applies) may be referred by the planning authority or any other prospective party to the agreement to An Bord Pleanála for determination.

**Reason:** To comply with the requirements of Part V of the Planning and Development Act 2000, as amended, and of the housing strategy in the development plan for the area.

9. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

**Reason:** It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
