At a meeting held on 10/09/2019, the Board considered the report of the Planning Inspector, as well as the documents and submissions on file, in relation to the proposed replacement of 25 wind turbines (with a combined output of 15MW) with 13 wind turbines with an estimated combined output of in the region of 60MW, in the townland of Keadow Upper, Barnesmore, County Donegal.

The Board determined, in accordance with the inspector's reasoning and recommendation, that the proposed development constitutes strategic infrastructure development as defined by section 2(1) of the Planning and Development Act 2000, as amended by section 6 of the Planning and Development (Strategic Infrastructure) act 2006, and that a planning application should be made directly to the Board.
