ABP-304447-19

The submissions on this file and the Inspector's report were considered at a Board meeting held on 23/09/2019.

The Board decided to grant permission, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the residential zoning objective of the site, the nature, scale and design of the proposed development, the existing pattern of development in the area, it is considered that, subject to the conditions set out below, the proposed development would be acceptable in terms of design, height and scale of development, would not seriously injure the amenities of the area or of property in the vicinity, would be acceptable in terms of pedestrian and traffic safety, and would comply with the provisions of the South County Dublin Development Plan 2016-2022. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

In deciding not to accept the Inspector's recommendation to refuse permission, the Board considered that the omission of 1 of the 4 proposed units and reduction in the number of parking spaces required would allow sufficient access for emergency vehicles. The Board considered that the scale, siting and layout of the proposed development, would integrate with the surrounding area, and that the roof forms, materials and density would be appropriate for the local context and in accordance with the pattern of development in the area, and would not have an adverse impact on the visual and residential amenity of the properties in the vicinity.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted on the 22nd day of March 2019, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The proposed development shall be amended as follows:
 - (a) Unit number 02 shall be omitted, and Unit number 01 shall be relocated westwards to form a terrace of three units.
 - (b) 4 parking spaces only shall be provided, and a clear width of a minimum of 3 metres shall be demarcated and kept free of obstacles to allow for pedestrian access to the residential units.
 - (c) The north facing window of first floor bedroom number 3 in the west end of terrace unit shall be omitted.
 - (d) All first floor windows to the north elevation shall be finished in obscured glazing.

Revised drawings showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interests of residential amenity.

3. The existing historic stone wall which forms the boundary to the South and West of the proposed development shall be retained. Details to be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interests of clarity.

4. Each unit shall be used as a single dwelling only and shall not be subdivided in any manner or used as two or more separate habitable units.

Reason: To restrict the use of the extension in the interest of residential amenity.

5. A comprehensive boundary treatment and landscaping scheme shall be submitted to and agreed in writing with the planning authority, prior to commencement of development. This scheme shall include the following:-

- (a) details of all proposed hard surface finishes, including samples of proposed paving slabs/materials for footpaths, kerbing and road surfaces within the development;
- (b) proposed locations of trees and other landscape planting in the development, including details of proposed species and settings;
- (c) details of proposed lighting fixtures and bicycle racks;
- (d) details of proposed boundary treatments at the perimeter of the site, including heights, materials and finishes.

The boundary treatment and landscaping shall be carried out in accordance with the agreed scheme.

Reason: In the interest of visual amenity.

6. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

7. Water supply and drainage arrangements, including attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

8. The applicant or developer shall enter into water and/or waste water connection agreement(s) with Irish Water, prior to commencement of development.

Reason: In the interest of public health.

9. A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and, in particular, recyclable materials shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: In the interest of residential amenity, and to ensure the provision of adequate refuse storage.

10. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground within the site. Ducting shall be provided by the developer to

facilitate the provisions of broadband infrastructure within the proposed development.

Reason: In the interest of visual and residential amenity.

11. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

12. Proposals for an estate/street name, house numbering scheme and associated signage shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. Thereafter, all estate and street signs, and house numbers, shall be provided in accordance with the agreed scheme. The proposed name(s) shall be based on local historical or topographical features, or other alternatives acceptable to the planning authority. No advertisements/marketing signage relating to the name(s) of the development shall be erected until the developer has obtained the planning authority's written agreement to the proposed name(s).

Reason: In the interest of urban legibility and to ensure the use of locally appropriate placenames for new residential areas.

13. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefitting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall

be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developers or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
