ABP-304525-19

The submissions on this file and the Inspector's report were considered at a Board meeting held on 14/10/2019.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the city centre location of the development, the planning history on the site and pattern of development in the area and the provisions of the Dublin City Development Plan 2016-2022 and to the nature, scale, layout and design of the proposed development, it is considered that subject to compliance with the conditions set out below, the proposed development would provide for a vibrant form of development which would not seriously injure the visual or other amenities of the area or adjoining property, would be acceptable in terms of impact on the architectural and cultural heritage of the area, and would be acceptable in terms of traffic safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and lodged with the application, as amended by the further plans and submitted on the 4th day of April 2019, except as may otherwise be required in

order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The developer shall facilitate the preservation, recording and protection of archaeological materials or features that may exist within the site. In this regard the developer shall –
 - (a) Notify the planning authority in writing at least four weeks prior to the commencement of any site operation (including hydrological and geotechnical investigations) relating to the proposed development,
 - (b) Employ a suitably qualified archaeologist who shall monitor all site excavations and other excavation works, and
 - (c) Provide arrangements, acceptable to the planning authority, for the recording and for the removal of any archaeological material which the authority considers appropriate to remove.

In default of agreement on any of these requirements, the matter shall be referred to An Bord Pleanála for determination.

Reason: In order to conserve the archaeological heritage of the site and to secure the preservation and protection of any remains that may exist within the site.

3. The proposed development shall be implemented in such a manner as to ensure no adverse impact on Luas operation and safety and shall comply with Transport Infrastructure Ireland's Code of Engineering Practice for works on, near or adjacent to the Luas light Rail System. Prior to the commencement of development, the developer shall consult with TII and submit to the planning

authority details showing compliance with these requirements for written agreement including the following:

(a) Prior to the commencement of development, the developer shall obtain a permit from the Luas operator under the Light Railway (Regulation of Works) Bye Laws 2004 (SI No 101 of 2004) which regulates works occurring close to LRT infrastructure.

(b) Demolition and construction method statement, identifying all interfaces to the Luas alignment and risk assessment for work associated with the interfaces including mitigation measures.

(c) Construction management plan and construction traffic management plan.

Reason: In the interest of traffic safety and to ensure no adverse impact on Luas operation and safety.

4. Details, including samples, of the materials, colours and textures of all the external finishes to the building shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

5. Notwithstanding the exempted development provisions of the Planning and Development Regulations, 2001, as amended, no additional plant, machinery or telecommunications structures shall be erected on the roofs of any of the buildings nor shall any external fans, louvres or ducts be installed without a prior grant of planning permission.

Reason: In the interest of visual amenity.

6. No signage, advertising structures / advertisements, security shutters or other projecting elements, including flagpoles, shall be erected within the site unless authorised by a further grant of planning permission.

Reason: To protect the visual amenities of the area.

7. Water supply and drainage arrangements, including the disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

8. Public lighting shall be provided in accordance with a scheme, details of which shall be submitted to the planning authority for agreement prior to the commencement of development.

Reason: In the interest of amenity and public safety.

9. Site development and building works shall be carried out only between the hours of 0700 to 1800 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

10. Construction and demolition waste shall be managed in accordance with a construction waste and demolition management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of

development. This plan shall be prepared in accordance with the “Best Practice Guidelines on the Preparation of Waste Management Plans for Construction and Demolition Projects”, published by the Department of the Environment, Heritage and Local Government in July 2006. The plan shall include details of waste to be generated during site clearance and construction phases, and details of the methods and locations to be employed for the prevention, minimisation, recovery and disposal of this material in accordance with the provision of the Waste Management Plan for the Region in which the site is situated.

Reason: In the interest of sustainable waste management.

11. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including:
 - (a) Location of the site and materials compound including area identified for the storage of construction refuse;
 - (b) Location of areas for construction site offices and staff facilities;
 - (c) Details of site security fencing and hoardings;
 - (d) Details of on-site car parking facilities for site workers during the course of construction;
 - (e) Details of the timing and routing of construction traffic to and from the construction site and associated directional signage, to include proposals to facilitate the delivery of abnormal loads to the site;
 - (f) Measures to obviate queuing of construction traffic on the adjoining road network;
 - (g) Measures to prevent the spillage or deposit of clay, rubble or other debris on the public road network;

(h) Alternative arrangements to be put in place for pedestrians and vehicles in the case of the closure of any public road or footpath during the course of site development works;

(j) Details of appropriate mitigation measures for noise, dust and vibration, and monitoring of such levels;

(j) Containment of all construction-related fuel and oil within specially constructed bunds to ensure that fuel spillages are fully contained. Such bunds shall be roofed to exclude rainwater;

(k) Off-site disposal of construction/demolition waste and details of how it is proposed to manage excavated soil;

(l) Means to ensure that surface water run-off is controlled such that no silt or other pollutants enter local surface water sewers or drains.

(m) Arrangements for ongoing liaison with existing building and adjacent occupants

A record of daily checks that the works are being undertaken in accordance with the Construction Management Plan shall be kept for inspection by the planning authority.

Reason: In the interest of amenities, public health and safety.

12. A plan containing details for the management of waste (and, in particular, recyclable materials) within the development, including the provision of facilities for the storage, separation and collection of the waste and recyclable materials and for the ongoing operation of these facilities shall be submitted to, and agreed

in writing with, the planning authority prior to commencement of development. Thereafter, the waste shall be managed in accordance with the agreed plan.

Reason: To provide for the appropriate management of waste and, in particular recyclable materials, in the interest of protecting the environment.

13. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme.

14. The developer shall pay to the planning authority a financial contribution in respect of the Luas Cross City Scheme in accordance with the terms of the Supplementary Development Contribution Scheme made by the Planning Authority under Section 49 of the Planning and Development Act 2000. The contribution shall be paid prior to the commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the scheme shall be agreed between the

planning authority and the developer or, in default of such agreement, the matter shall be referred to the Board to determine the proper application of the terms of the scheme.

Reason: It is a requirement of the Planning and Development Act 2000 that a condition requiring a contribution in accordance with the Supplementary Development Contribution Scheme made under section 49 of the Act be applied to the permission.
