**Board Direction**  
**BD-004038-19**  
**ABP-304767-19**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 17/09/2019.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to:

- (a) the provisions of the Dublin City Development Plan 2016-2022,
- (b) the nature, scale and orientation of the development proposed,
- (c) the size of the overall site, and
- (c) the pattern of development in the area,

it is considered that subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities of the area or detract from the character of the area. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

## Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. Details of the materials, colours and textures of all the external finishes to the proposed extension shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In the interest of visual amenity.

3. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

**Reason:** In the interest of public health.

4. a) The rooflights at roof level on the south-east elevation shall be fitted with permanent obscure glazing.

b) No rooflights are permitted on the front elevation.

c) The high-profile window on the south-east elevation at ground floor level shall have permanent obscured glazing.

**Reason:** In the interest of clarity and to protect residential amenities.

5. The existing dwelling and proposed extension shall be jointly occupied as a single residential unit and the extension shall not be sold, let or otherwise transferred or conveyed, save as part of the dwelling.

**Reason:** To restrict the use of the extension in the interest of residential amenity.

6. The footpath shall be dished at the road junction in accordance with the requirements of the planning authority. Details of the location and materials to be used in such dishing shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. The width of the vehicular entrances shall be a maximum width of 3.4metres.

**Reason:** In the interest of visual amenity and pedestrian safety.

7. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including hours of working, noise management measures, protection of the public roads and public footpaths, and off-site disposal of construction/demolition waste.

**Reason:** In the interests of public safety and residential amenity.

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefitting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

**Reason:** It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

**Board Member**

**Date:** 17/09/2019
