The submissions on this file and the Inspector's report were considered at a Board meeting held on 04/11/2019.

The Board decided to grant permission, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the provisions of the Dublin City Development Plan 2016-2022, the nature and scale of the proposed development and the pattern of development in the area, it is considered that, subject to compliance with the Conditions set out below, the proposed development would not seriously injure the visual or residential amenities of the area, and would be acceptable in terms of traffic and pedestrian safety. The proposed development would therefore be in accordance with the proper planning and sustainable development of the area

In deciding not to accept the Inspector's recommendation to refuse permission, the Board agreed with the planning authority that given the layout of the site, that the open space to the front of the proposed development could form part of the calculation for private open space, and furthermore, that the location of the site in proximity to Sandymount Strand, would provide an acceptable level of amenity for future occupants, and that the proposed development would therefore be in accordance with the proper planning and sustainable development of the area
