The submissions on this file and the Inspector's report were considered at a Board meeting held on 21/02/2020.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the location of the site on residentially zoned lands in the Dundalk Town and Environs Development Plan, 2009 to 2015, and to the policies and objectives of the Louth County Development Plan, 2015 to 2021, to the nature, scale and design of the proposed development, and to the pattern of development in this suburban serviced area, it is considered that, subject to compliance with the conditions set out below, the proposed development would not detract from the character of the area, and would not seriously injure the residential or visual amenities of the area or of property in the vicinity, would not endanger public safety by reason of a traffic hazard nor would it be prejudicial to public health. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans

and particulars submitted on the 23rd day of July, 2019, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The first floor en-suite window serving Bedroom No. 4 on the side elevation shall be permanently glazed with obscured glass.

Reason: In the interests of residential amenity.

3. Prior to the commencement of development all water supply and drainage arrangements, including the attenuation and disposal of surface water, evidence of capacity of foul drainage serving the Elm Park residential development to accommodate the proposed dwelling, all necessary consents for making, amending or re-routing of any connections and including rainwater and guttering details shall be agreed with the planning authority for such works and services.

Reason: In the interest of public health.

4. Details of the materials, colours and textures of all the external finishes to the proposed dwelling shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

5. A landscaping scheme shall be submitted to and agreed in writing with the planning authority, prior to commencement of development. This scheme shall include the following: -

- (a) Details of all proposed hard surface finishes, including proposed paving slabs/materials for footpaths, kerbing and surfaces within the development;

- (b) Proposed locations of trees and other landscape planting in the development, including details of proposed species and settings;
- (c) Details of proposed boundary back planting treatments at the western and southern perimeter of the site.

The boundary treatment and landscaping shall be carried out in accordance with the agreed scheme.

Reason: In the interest of visual amenity.

6. Site development and building works shall be carried out only between the hours of 0800 to 1900 Mondays to Fridays inclusive, between 0800 to 1300 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the residential amenities of property in the vicinity.

7. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Note:

[Please include, in the letters notifying the parties of the decision, a reminder of the provisions of Section 34 (13) of the Act.]
