**ABP-306070-19**

The submissions on this file and the Inspector's report were considered at a Board meeting held on 27/05/2020.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

Having regard to the location of the site on residentially zoned lands in the Drogheda Borough Council Development Plan 2011 – 2017 (as extended) and to the policies and objectives of the Louth County Development Plan 2015 - 2021, to the nature, scale and design of the proposed development, and to the pattern of development in the area, it is considered that, subject to compliance with the conditions set out below, the proposed development would not detract from the character of the area, and would not seriously injure the residential or visual amenities of the area or of property in the vicinity and would not endanger public safety by reason of a traffic hazard. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

### **Conditions**

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars received by An Bord Pleanála on the 17<sup>th</sup> day of

January, 2020, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

**Reason:** In the interest of clarity.

2. The proposed development shall be amended as follows:
  - (a) The overall ridge height and the eaves height of the three-storey element of the dwelling shall be reduced by a minimum of 350mm.
  - (b) The single storey kitchen/living/dining room element of the dwelling shall be sited a minimum of 2 metres off the western site boundary, to allow for the potential retention of the existing hedgerow.

Revised drawings showing compliance with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In the interests of the visual and residential amenity of the area.

3. Notwithstanding the exempted development provisions of the Planning and Development Regulations, 2001, and any statutory provision replacing or amending them, no development falling within Class 1 or Class 3 of Schedule 2, Part 1 of those Regulations shall take place within the curtilage of the house, including the rear garden area, without a prior grant of planning permission.

**Reason:** In the interest of the residential amenities of the area.

4. Details of the materials, colours and textures of all the external finishes to the proposed dwelling shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In the interest of visual amenity.

5. Details of proposed boundary treatments at the perimeters of the site, including heights, materials and finishes, shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In the interest of visual and residential amenity.

6. The vehicular access, and parking area serving the proposed development, shall comply with the requirements of the planning authority for such works.

**Reason:** In the interests of amenity and of traffic and pedestrian safety.

7. Electric connections to the exterior of the house to allow for the future provision of electric vehicle charging points shall be provided. Details of how it is proposed to comply with these requirements shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In the interest of sustainable transportation.

8. Water supply and drainage arrangements, including the attenuation and disposal of surface water, and including rainwater and guttering details shall comply with the requirements of the planning authority for such works and services.

**Reason:** In the interest of public health.

9. The developer shall enter into water and/or wastewater connection agreement(s) with Irish Water prior to the commencement of this development.

**Reason:** In the interest of public health.

10. The applicant shall submit a report from a chartered Geotechnical Engineer, demonstrating that the provision of the proposed Infiltration Blanket will not compromise the stability of the proposed dwelling. This shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

**Reason:** In the interests of clarity and the residential amenity of the area.

11. All public services to the proposed development, including electrical, telephone cables and associated equipment shall be located underground throughout the entire site.

**Reason:** In the interest of visual amenity.

12. The construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including hours of working, noise management measures, protection of the public roads and public footpaths, and off-site disposal of construction/demolition waste.

**Reason:** In the interests of public safety and residential amenity.

13. The development and building works shall be carried out only between the hours of 0800 and 1900 from Mondays to Fridays inclusive, between 0800 and 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

**Reason:** In order to safeguard the residential amenities of property in the vicinity.

14. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of

payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

**Reason:** It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

**Board Member**

**Date:** 29/05/2020
