The submissions on this file and the Inspector's report were considered at a Board meeting held on 25/03/2020.

The Board decided to grant permission, for the following reasons and considerations, and subject to the following conditions.

### **Reasons and Considerations**

The Board had regard to the location of the site, the pattern of development in the area, the zoning of the site, the nature, scale and design of the proposed development, and considered that the proposed development would result in a high quality contemporary design, would be an efficient use of under-utilised land zoned for residential development while protecting the amenities of the adjoining properties in the residential conservation area, including the Botanic Gardens, and would enhance the visual amenities of the area. The proposed development would therefore be in accordance with the proper planning and sustainable development of the area.

In deciding not to accept the Inspector's recommendation to refuse permission, the Board had regard to the nature and layout of the proposed development, the pedestrian access and the provision of one in-curtilage car parking space from the shared access lane, and considered that the access arrangements would be acceptable in terms of traffic and pedestrian safety and would not endanger public safety by reason of traffic hazard. The proposed development would therefore be in accordance with the proper planning and sustainable development of the area.

## Conditions

The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted on the 15th day of November 2019, except as may otherwise be required in order to comply with the following conditions. **Reason:** In the interest of visual amenity.

7. The developer shall facilitate the preservation, recording and protection of archaeological materials or features that may exist within the site. In this regard, the developer shall -

12. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended.
