ABP-306392-20

The submissions on this file and the Inspector's report were considered at a Board meeting held on 31/07/2020.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of the Dublin City Development Plan 2016-2022, the existing pattern of development in the area, and the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the plans and particulars submitted on the 13th day of November 2019, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Details of the materials, colours and textures of all the external finishes to the proposed buildings shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of the visual amenities of the area.

3. Water supply and drainage arrangements, including the disposal and attenuation of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

4. Access and parking arrangements shall comply with the requirements of the planning authority for such works. Full details of the proposed footpath and kerb to be dished shall be agreed in writing with the planning authority prior to the commencement of development.

Reason: In the interests of public health and traffic safety.

5. The proposed first floor roof light serving bedroom no. 3 of dwelling no. 2 shall be omitted and a standard window inserted to serve this bedroom.

Reason: In the interest of residential amenity.

6. Details of all boundary treatments to be submitted to, and agreed in writing with, the planning authority prior to the commencement of development. The existing boundary walls to the rear of the existing sheds, between the development site and properties along the Ballymun Road and St Pappin's Road, shall be retained, any damage to these boundary walls during the demolition and construction stage of the proposed development shall be repaired/rebuilt at the expense of the developer, details of any works required

shall be agreed with the planning authority prior to the commencement of such works.

Reason: In the interest of visual and residential amenity for future occupants.

7. All service cables associated with the proposed development (such as electrical, telecommunications and communal television) shall be located underground. All existing over ground cables shall be relocated underground as part of the site development works.

Reason: In the interests of visual and residential amenity.

8. Ducting shall be provided within car parking spaces to facilitate the installation of electric vehicle charging points/stations. Details of such proposals shall be submitted to, and agreed in writing with, the Planning Authority prior to commencement of development.

Reason: In the interest of sustainable travel.

9. The site and development works shall be carried out in such a manner as to ensure that the adjoining street(s) are kept clear of debris, soil and other material and if the need arises for cleaning works to be carried out on the adjoining public road, the said cleaning works shall be carried out at the developers expense.

Reason: In the interest of orderly development.

10. Site development and building works shall be carried out only between the hours of 0700 to 1900 Mondays to Fridays inclusive, between 0800 to 1400 hours on Saturdays and not at all on Sundays and public holidays. Deviation from these times will only be allowed in exceptional circumstances where prior written approval has been received from the planning authority.

Reason: In order to safeguard the amenities of property in the vicinity.

11. The demolition and construction of the development shall be managed in accordance with a Construction Management Plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interests of public safety and residential amenity.

12. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
