ABP-306612-20

The submissions on this file and the Inspector's report were considered at a Board meeting held on 21/07/2020.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the rural location of the proposed development and Policies AGP1 and AGP2 in the current Monaghan County Development Plan 2019-2025, it is considered that, subject to compliance with the conditions set out below, the proposed development would not have an adverse visual impact, would not seriously injure the amenities of the area by way of vermin, odour or noise nuisance or otherwise, would not be prejudicial to public health and would be acceptable in terms of traffic safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted on the 21st day of November 2019 and the 6th of January 2020 and by the further plans and particulars received by An Bord

Pleanála on the 16th day of March, 2020, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. (a) The vehicular entrance and associated sightlines and on-site turning area shall comply with the requirements of the planning authority for such works. Details of the proposed access arrangements shall be submitted to, and agreed in writing with, the planning authority prior to the commencement of development.

(b) The proposed new entrance shall be carried out prior to the commencement of construction of the proposed poultry house.

(c) Access to the poultry house and associated operations shall be via the proposed new access only.

The planning authority shall be notified in writing when the above works have been carried out. No construction shall commence on the proposed poultry house until the planning authority confirms in writing that the entrance has been provided to its satisfaction.

Reason: In the interest of traffic safety.

3. Water Supply and Drainage arrangements for the site, including the disposal of surface and soiled water, shall comply with the requirements of the planning authority for such works and services. In this regard-

(a) uncontaminated surface water run-off from the roof of the poultry house shall be disposed of directly in a sealed system to existing drains, streams or adequate soakpits, and

(b) run-off from the concrete yard areas and all soiled waters shall be directed to a storage tank.

Drainage details shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of environmental protection and public health.

4. All poultry manure generated in the poultry house shall be disposed of off-site. The arrangements for the collection, storage and disposal of poultry manure shall comply with the requirements of the Department of Agriculture, Food and the Marine, Animal By-Products legislative requirements and all planning authority guidance on the protection of sensitive waters including water supply sources.

Reason: In the interest of public health.

5. Poultry litter movements off-site shall be recorded. Records shall be maintained on-site and made available to the planning authority on request.

Reason: In the interest of orderly development.

6. Details of the
 - finishes of the poultry house and feed silos and
 - fencing arrangements for a five metre wide buffer zone around drains and watercoursesshall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. The roof cladding of the poultry house and the finishes of the feed silo shall be dark green in colour.

Reason: In the interest of visual amenity and environmental protection.

7. (a) With the exception of the trees and hedgerows to be removed to facilitate the construction of the poultry house and site entrance, all existing trees and hedgerows on the site and in the range areas shall be retained and shall be reinforced with additional planting and protected from damage at all times particularly during building operations.

(b) In the first planting season following the commencement of development, the site shall be landscaped in accordance with a landscaping scheme which shall be submitted to, and agreed in writing with, the planning authority prior to the commencement of development. Any failures within the planting scheme shall be replaced in the subsequent planting season.

(c) The line of the recess entrance shall be planted with a double staggered row of trees (at maximum three metre centres) and a hedgerow of species native to the area to form a naturalised hedgerow similar to existing hedgerows in the vicinity. Species shall include thorn, beech, ash, oak, hazel, sycamore and holly.

Reason: In the interests of visual amenity.

8. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
