ABP-307252-20

The submissions on this file and the Inspector's report were considered at a Board meeting held on 14/09/2020.

The Board decided to refuse permission for the following reasons and considerations.

Reasons and Considerations

Having regard to the location of the site within the “GB” zoning objective under the Fingal Development Plan, 2017-2023, the objective of which is to “Protect and provide for a Greenbelt”, a “Rural area under strong urban influence” in the Sustainable Rural Guidelines for Planning Authorities, and to National Policy Objective 19 of the National Planning Framework (February 2018) which, for rural areas under urban influence, seeks to facilitate the provision of single housing in the countryside based on the core consideration of demonstrable economic or social need to live in a rural area, having regard to the viability of smaller towns and rural settlements, it is considered that the applicant has not demonstrated an economic or social need to live in a rural area having regard to the viability of smaller towns and rural settlements and, therefore, the proposed development does not comply with National Policy Objective 19. The proposed development would contribute to the encroachment of random rural development in the area, would militate against the preservation of the rural environment and the efficient provision of public services and infrastructure and would contravene the provisions of the National Planning Framework. The proposed development would, therefore, be contrary to the proper planning and sustainable development of the area.

In deciding not to accept the Inspector's recommendation to grant permission, the Board had regard to the provisions of the County Development Plan, the Sustainable Rural Guidelines for Planning Authorities, and the National Planning Framework and considered that the applicant has not demonstrated eligibility for a dwelling in a rural and Greenbelt area, and that the proposed development would therefore be contrary to the proper planning and sustainable development of the area.
