MATTERS CONSIDERED

In making its decision, the Board had regard to those matters to which, by virtue of the Planning and Development Acts and Regulations made thereunder, it was required to have regard.

REASONS AND CONSIDERATIONS

Having regard to:

(i) the nature and scale of the wind farm development permitted under An Bord Pleanála Reference Number 19.PA0047 for this site, which includes 21 turbines, a 110kV substation and 2 no. temporary construction compounds,

(ii) the examination of the environmental impact, including in relation to Natura 2000 sites, carried out in the course of that application,

(iii) the limited nature and scale of the alterations when considered in relation to the overall permitted development

(iv) the absence of any significant new or additional environmental concerns (including in relation to Natura 2000 sites) arising as a result of the proposed alterations, and

(v) the report of the Board's inspector, which is adopted,

It is considered that the proposed alterations would not be material. In accordance with section 146B(3)(a) of the Planning & Development Act, as amended, the Board hereby makes the said alterations.
