ABP-307675-20

The submissions on this file and the Inspector's report were considered at a Board meeting held on 02/11/2020.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the land use zoning designation for the site, the established fuel filling station use on the site and the nature and extent of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity and would be acceptable in terms of traffic safety and convenience. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. No advertisement or advertisement structure, the exhibition or erection of which would otherwise constitute exempted development under the Planning and Development Regulations 2001, as amended, or any statutory provision amending or replacing them, shall be displayed or erected on the canopy, on the forecourt building or anywhere within the curtilage of the site or adjoining lands under the control of the applicant, unless authorised by a further grant of planning permission.

Reason: In the interest of visual amenity.
