The submissions on this file and the Inspector's report were considered at a Board meeting held on 19/02/2021.

The Board decided to grant permission generally in accordance with the Inspector's recommendation, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the zoning objective for the site, Z1: "To protect, provide and improve residential amenities", as set out in the Dublin City Development Plan 2016 to 2022, and to the design, form and layout of the proposed development it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the residential or visual amenities or character of the area, and would therefore be in accordance with the proper planning and sustainable development of the area.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application as amended by the further plans and particulars submitted on the 7th day of October 2020, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to

commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. The proposed development shall be amended as follows:

(a) Driveway entrance shall be a maximum of 3.2 metres in width, shall not have outward opening gates, and shall not impact on the existing provision of on-street parking bays.

(b) The car parking area to the front shall be reduced to the minimum necessary to accommodate one car. The remainder of the front garden shall be retained in soft landscaping.

Details of the above including the increased vehicular entrance shall be submitted to and agreed in writing with the planning authority prior to commencement of development.

Reason: In the interest of orderly development, traffic safety and to preserve on-street parking.

3. Details of materials, colours and textures of all external finishes, shall be submitted to and agreed in writing with the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

4. Water supply and drainage arrangements, including the attenuation and disposal of surface water, shall comply with the requirements of the planning authority for such works and services.

Reason: In the interest of public health.

5. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.
