Board Direction
BD-007916-21
ABP-308828-20

At a meeting held on 16/04/2021, the Board considered the report of the Planning Inspector, as well as the documents and submissions on file, in relation to the proposed development, consisting of 110kV substation replacing the permitted 38kV substation at Drehid Wind Farm, and the 110kV underground cable to the existing Timahoe North Solar Farm 110kV substation, County Kildare.

The Board determined that the proposed development, as set out in the plans and particulars received by the Board on the 3rd day of December 2020, does not fall within the scope of section 182A of the Planning and Development Act 2000, as amended, and that a planning application should therefore be made in the first instance to Kildare County Council.

Board Member:
