ABP-308956-20

The submissions on this file and the Inspector's report were considered at a Board meeting held on 27/04/2021.

The Board decided to grant permission, for the following reasons and considerations, and subject to the following conditions.

Reasons and Considerations

Having regard to the provisions of the Fingal County Development Plan 2017-2023, to Objectives DMS39, DMA40 & DMS41, to the pattern of development in the area and site context and to its nature and scale, the Board was satisfied that, subject to compliance with the conditions as set out below, would be acceptable in terms of visual amenity and would represent an acceptable quantum of development on a serviced suburban infill site. The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

In deciding not to accept the Inspector's recommendation to refuse permission, the Board was satisfied that the proposed development would not have a significant negative visual impact on the existing streetscape and would not constitute an overdevelopment of the site.

Furthermore, the Board was satisfied that the proposed alterations to the existing roof to raise the ridge height and provide a dormer window to the rear would not result in an overly dominant form of development and would not have a significant negative visual impact on the character of the area.

The Board noted that the planning authority had decided to refuse permission in part because it was considered that the proposed development would constitute a material contravention of the Development Plan. However, having regard to the provisions of Section 37(2)(b) of the Planning and Development Act, 2000, as amended, and having regard to the pattern of the development, the Board considered that planning permission should be granted for the proposed development.

Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the plans and particulars received by An Bord Pleanála on 18th day of December, 2020, except as may otherwise be required in order to comply with the following conditions. Where such conditions require details to be agreed with the planning authority, the developer shall agree such details in writing with the planning authority prior to the commencement of development and the development shall be carried out and completed in accordance with the agreed particulars.

Reason: In the interest of clarity.

2. Details of the materials, colours and textures of all the external finishes to the proposed dwellings shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

Reason: In the interest of visual amenity.

3. The developer shall enter into a water and/or wastewater connection agreement with Irish Water prior to commencement of development.

Reason: In the interest of orderly development.

4. The construction of the development shall be managed in accordance with a construction management plan, which shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development. This plan shall provide details of intended construction practice for the development, including noise management measures and off-site disposal of construction/demolition waste.

Reason: In the interest of residential amenity.

5. The developer shall pay to the planning authority a financial contribution in respect of public infrastructure and facilities benefiting development in the area of the planning authority that is provided or intended to be provided by or on behalf of the authority in accordance with the terms of the Development Contribution Scheme made under section 48 of the Planning and Development Act 2000, as amended. The contribution shall be paid prior to commencement of development or in such phased payments as the planning authority may facilitate and shall be subject to any applicable indexation provisions of the Scheme at the time of payment. Details of the application of the terms of the Scheme shall be agreed between the planning authority and the developer or, in default of such agreement, the matter shall be referred to An Bord Pleanála to determine the proper application of the terms of the Scheme.

Reason: It is a requirement of the Planning and Development Act 2000, as amended, that a condition requiring a contribution in accordance with the Development Contribution Scheme made under section 48 of the Act be applied to the permission.

Board Member

Paul Hyde
